

FABIO GOMEZ VELASQUEZ

AI Agent Developer | Automation Architect | Master Technical Instructor

Mississauga, ON | [Tu Teléfono] | [Tu Email]

Portfolio: [fagv.ca](#) | LinkedIn: [linkedin.com/in/fabiogomez](#)

PROFESSIONAL SUMMARY

Innovative **Automation Architect** and **Master Technical Instructor** with over 25 years of engineering rigor and executive leadership. Expert in bridging the gap between legacy infrastructure and generative AI to drive measurable **Business ROI**. Proven track record of steering a profitable technology firm (**Telsco**) for 15+ years serving global giants like **Nokia and Siemens**, and recently architecting production-grade AI agentic systems within the Canadian automotive sector.

CORE COMPETENCIES

- **AI & Agentic Workflows:** Multi-model orchestration (OpenAI, Claude, Gemini, ElevenLabs), n8n (20+ production workflows), Prompt Engineering, RAG.
- **Development & Integration:** Node.js, REST APIs, Webhooks, Google Cloud (Document AI), Python for scripting.
- **Business Intelligence:** Financial Mathematics (Lease/Credit modeling), ROI quantification, Strategic Profitability.
- **Legacy Engineering:** 25 years in Telecommunications, Infrastructure Deployment, IoT, Systems Integration.
- **Leadership:** Former CEO/Founder, Master Instructor (1,000+ hours of corporate training delivered across LATAM).

FEATURED PROJECT: SOPHIA AI

Autonomous Multilingual Sales Agent

- **Architecture:** Orchestrated via **n8n** and **Node.js** microservices to handle the full lead-to-appointment lifecycle.
- **Innovation:** Integrated **OpenAI API** to support 30+ languages and real-time **Inventory API** queries for instant specs and pricing.
- **Impact:** Automated 24/7 lead qualification and scheduling with zero human intervention, significantly increasing dealership conversion rates.
- **Live Demo:** [wa.me/12495000404?text=test](#)

PROFESSIONAL EXPERIENCE

AI SOLUTIONS DEVELOPER & SALES SPECIALIST | Mississauga Hyundai | 2021 – Present

- Identified operational friction and architected an automation ecosystem using **n8n** to scale marketing and sales processes.
- Architected scalable solutions within the **Google Cloud ecosystem**, leveraging Document AI for financial data extraction and Google Sheets/Drive APIs to automate real-time inventory synchronization and lead management.
- Developed internal **Pricing Audit Agents** to synchronize manual internal records with live website data, alerting management of inconsistencies.
- Built automated **Meta Ad Catalog** generators via CSV manipulation to optimize dynamic retargeting campaigns.
- Integrated **Google Document AI** to automate data extraction from financial funding forms, reducing manual entry errors by 90%.
- Reverse-engineered CRM authentication flows to manage tokens and build custom **Postman collections** for lead synchronization.

FOUNDER & CEO | Telsco SAS | 15+ Years

- Steered a profitable technology firm as a primary service partner for **Nokia, Siemens, Telefónica, and Alcatel**.
- Managed high-stakes infrastructure projects and multi-disciplinary teams across Latin America.
- Established a reputation for "superior intelligence" and innovation, consistently delivering solutions beyond the scope of formal requirements.

FIELD ENGINEER & MASTER TECHNICAL INSTRUCTOR | Siemens | Nokia Siemens Networks

- Designated as an official **Technology Instructor**, delivering **1,000+ hours** of advanced technical training to corporate clients internationally.
- Managed large-scale telecommunications deployments, ensuring 99.9% reliability in critical data transport systems.
- Recognized for the ability to translate complex engineering concepts into actionable business solutions.

TECHNICAL SKILLS

- **Automation Platforms:** n8n (Expert), Zapier, custom Node.js microservices.
 - **AI Models:** GPT, Claude, Google Gemini, Google Document AI (OCR/IDP), ElevenLabs.
 - **Languages & Protocols:** JavaScript/Node.js, Python (scripting), REST APIs, Webhooks, HTML/CSS.
 - **Infrastructure:** IoT, GPS/Telematics, 4G/5G, RF Power, Data Transport Protocols.
- ema:

- **Google Cloud Ecosystem (GCP):** Proficient in Document AI (IDP), Vertex AI (Gemini orchestration), Cloud Functions, and Cloud Storage.
 - **Google Workspace APIs:** Expert-level integration with Google Sheets API (used as a dynamic database), Drive API, and Gmail API for enterprise automation workflows.
-

EDUCATION

Advanced Professional Training & Certifications

- **Network Management Systems Administration:** Siemens ONMS on Unix OS – Munich, Germany.
- **Nokia & Siemens Infrastructure:** Multiple technical certifications in hardware, telecommunications protocols, and specialized equipment.

Electronic Engineering Studies | Universidad [Nombre], Bogotá, Colombia

- ComplEquivalent to **25+ years of senior-level professional experience** and industry-certified expertise.
